

When your child has health problems.....
Health Support for Children & Young People with SEND
in the Wokingham Borough

Mental Health Services (CAMHS)

The Children and Adolescent Mental Health Service (CAMHS) works with young people who are experiencing significant, severe and complex difficulties with their mental health. CAMHS also carry out Autism and ADHD assessments.

We are the independent voice of families, representing their experiences with the aim to improve lives.

SEND Voices Wokingham is a voluntary group, run by a steering committee; all are parents of children or young people with SEND. Our aim is to make sure the services in the Wokingham Borough meet the needs of disabled children and their families. We also bring people together, share support and offer training. Every family's experience is valid, and we want to ensure families are heard and by doing so we empower children, young people and their families to obtain the best possible care and service.
