BOROUGH COUNCIL

WOKINGHAM
BOROUGH COUNCIL

What is a Strategy?

- A strategy is a document that sets out a plan.
- The council is writing a **Learning Disability Strategy** for Wokingham borough residents.
- It will say how people with learning disabilities will be supported to live positive lives.

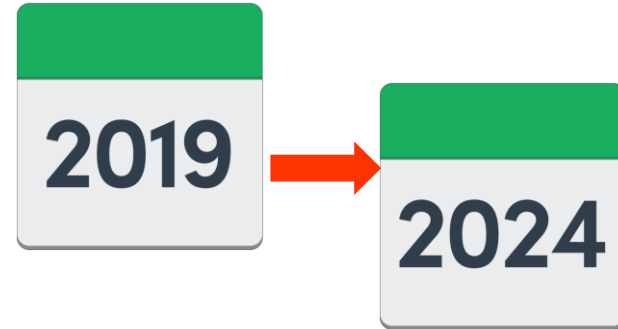

WOKINGHAM
BOROUGH COUNCIL

What will the Strategy do?

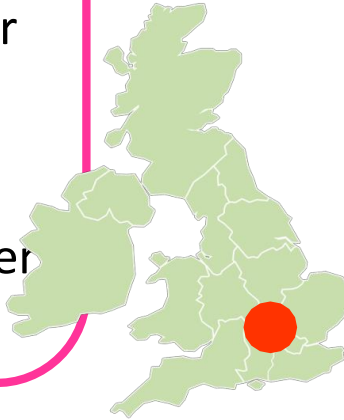

- ✓ Tell everyone about our plans to support residents with a learning disability over the next 5 years.
- ✓ Say how we will do this.
- ✓ Say where we will spend the money.
- ✓ Describe how many people with a learning disability need support now and in the future.

What we already know

More adults with learning disabilities (who need support) live here compared to other parts of the country.

This number has been increasing and will go up over the next 5yrs.

We spend more money supporting people with learning disabilities than other councils.

Address

Education

Work

We are good at supporting people with learning disabilities to get and keep a job.

We need to do more to help people with learning disabilities to live in their own home.

What we will do

- Look at the services we currently pay for and see if they can be made better.
- Think how we can make the most of the funding pot so there's enough support for those who need it.
- Listen to, and work with people with learning disabilities and carers to think about proposals for the strategy.
- Work together with Housing, the NHS, Children's Services and other partners to deliver the right services for the learning disability community.

What we've already been told

To choose where I live & who with

Help to be independent

My choice

Listened to

Easily accessible services

Support to speak up for myself

Help local business to understand the needs of people with learning disabilities

Better signposting

To be part of my community

Support for carers

Better activities

Better public transport

Want someone who's there for me

Tell us what you want

What's important to you

What's difficult to do

What helps

What can be done better

What would be good to have

Want to talk strategy?

Tell **Mat Pelling** what you think!
